PROFESSIONAL HISTORY

SYSTEMS ANALYST PL

GLOBALWEB, 01/2022 - 06/2022

- Development of New Pages and Improvements: I contributed to the creation and optimization of interfaces, enhancing the user experience.
- Agile Methodology: Participated in daily meetings and applied agile practices to ensure efficiency in development.
- Full-Stack Development: Experience in Java and Oracle SQL for the back-end, and using Angular (TypeScript/HTML/CSS/Bootstrap) on the front-end to build interactive applications.
- Version Control: Utilized Git for version control, facilitating team collaboration.
- Project Management with Jira: Allocated and monitored tasks using Jira, ensuring transparency and organization in the workflow.

SYSTEMS ANALYST JR

TIVIT, 07/2021 - 12/2021

- Development of New Pages and Improvements: I contributed to the creation and optimization of interfaces, enhancing the user experience.
- Agile Methodology: Participated in daily meetings and applied agile practices to ensure efficiency in development.
- Full-Stack Development: Experience in Java and Oracle SQL for the back-end, and using Angular (TypeScript/HTML/CSS/Bootstrap) on the front-end to build interactive applications.
- Version Control: Utilized Git for version control, facilitating team collaboration.
- Project Management with Jira: Allocated and monitored tasks using Jira, ensuring transparency and organization in the workflow.

APPRENTICE

SABESP, 2014 - 2016

As an apprentice, I was responsible for administrative tasks and support for the maneuvering team. Among them:
- Organization of documents.
- Interface with other departments by sending documents via courier.
- Support to the team by requesting record discovery services.
- Documentation of all requests and couriers through a spreadsheet that I implemented.
